

## **ISLPED Symposium: Directions from Parking Lot 9 to Kinsey Teaching Pavilion**

1. Exit Parking Lot 9 on Level 3. Enter the Engineering IV building (Henry Samueli School of Engineering) through the main entrance, which is just a few steps north of Lot 9.
2. Take elevators on the right to the 4th floor of Engineering IV. Exit to your right and walk down that corridor. Ahead of you will be a walkway that takes you to the 5th floor of Boelter Hall.
3. Once inside Boelter Hall, continue down that corridor. Ahead of you will be double glass doors that lead outside to an area called "Court of Sciences." Exit Boelter Hall at that location.
4. Descend steps and head north (to your left). Within a few minutes you'll pass under signage on a building that says *Mathematical Sciences Building* and emerge into an area called "Portola Plaza."
5. A brick building (Moore Hall) is straight ahead, slightly to your left. After turning to the right, Franz Hall will be on your right, the Portola Plaza Building on your left, and next to it will be the *Kinsey Teaching Pavilion* (white columns). This is the location for the large discussion portion of the ISLPED Symposium: Room 1240B in the Kinsey Teaching Pavilion building.
