

Call for Abstract for Women in Technology Showcase at ISLPED 2026

August 5-7, 2026, Northwestern University, Evanston, Illinois, USA

<https://www.islped.org/2026/>

The WIT showcase is designed for early stage (undergraduate and graduate) students entering the fields of low power electronic design and automation. We welcome applications from talented individuals worldwide, especially female candidates to showcase their current work. If selected, individuals will present their work in a short format lightning talk. This will be a great opportunity for presenters to receive feedback on their work from industry and academic professionals.

Eligibility:

- Must be a full-time student pursuing a BS, MS, or PhD degree in electrical engineering, computer engineering, computer science or related field.
- Participation is focused on female candidates in the early stages of their academic journey.

Benefits:

- Accepted students can opt for a free one day pass to present at WIT session
- Or opt for a 3-day student pass at an additional 50% discount to attend the full conference

***Optional evening banquet not included with free/discounted admission, but will be available for purchase*

Submission Requirements:

Title and a short abstract (300 words max.) about your work

Submission Deadline:

Friday May 29, 2026 by 6.00PM Eastern

Acceptance Notification:

Friday June 12, 2026
